Total Schedule Value
\$0.00

Interior Design Specification

1. Purpose

This Item Schedule has been prepared to communicate the Interior Designer’s design intent and to specify suggested fixtures, finishes, fittings, appliances, joinery elements and furniture for the project. The client is solely responsible for the selection of the suggested items.

2. Design Integrity

Items listed form part of the overall design concept. Any proposed substitutions should be reviewed and approved by the Interior Designer prior to purchase or installation to ensure the design intent is maintained.

3. Verification of Site Conditions

All dimensions, quantities and site conditions must be verified by the builder, contractor, joiner or supplier prior to ordering, fabrication or installation. The Interior Designer is not responsible for discrepancies resulting from unverified measurements.

4. Product Availability

Products are specified based on availability at the time of documentation. Manufacturers and suppliers may change, discontinue or alter products without notice. Where this occurs, a comparable alternative may be selected.

5. Procurement & Pricing

Unless otherwise agreed in writing, the Interior Designer is not responsible for the procurement, ordering, payment, delivery, or storage of items listed. Pricing, freight, lead times and installation costs must be confirmed directly with suppliers or contractors.

6. Installation Responsibility

All items must be installed by appropriately qualified trades in accordance with manufacturer recommendations and relevant building regulations. The Interior Designer is not responsible for installation methods or workmanship.

7. Trade Coordination

Builders, contractors and suppliers must review this schedule in conjunction with all relevant drawings and site conditions to ensure correct coordination prior to fabrication or installation.

8. Intellectual Property

All schedules, drawings and documentation remain the intellectual property of the Interior Designer and are provided solely for use on this project. They may not be reproduced, shared, or used for any other project without written permission.

9. Variations

Changes to items listed in this schedule may impact the design outcome and may require additional design time. Any requested changes may incur additional fees.

10. Limitation of Liability

The Interior Designer is not liable for product supply issues, supplier performance, contractor workmanship, installation errors, or substitutions made without written approval.
